

PROJECT TITLE:
Copper Patina Decorative Lamp

DESIGNED BY:
Kathy Kromer

SKILL LEVEL: (1 being the easiest, 5 being of highest difficulty)
Adult 1

TIME TO COMPLETE:
1 Hour (plus drying time between coats)

Use Sophisticated Finishes real Metallic Surfacers on fabric lamp shades to give a modern, updated look. Add beaded trim and a copper lamp base to finish off the project.

PROJECT TIP:
Sophisticated Finishes Metallic Surfacers contain real metal to give a true metal finish to any surface. The metal in the Copper paint reacts to the Patina Green Antiquing Solution creating a real patina finish, just like in nature. Sophisticated Finishes products are not flammable.

SEARCH TEXT: *(Please provide words which the consumer may use to search for this project. Words in this section should be in lowercase type and separated with one space between each word only.)*

Metallic lamp decorative beaded trim copper home décor lampshade green patina easy sophisticated finishes modern options triangle coatings

INSTRUCTIONS:

1. Apply basecoat of Copper to outside of lampshade and lamp base. Several coats of Copper will need to be added to smooth brush stroke lines on base, if painting a smooth surface. Allow to dry between coats.
2. Add a second coat to the lampshade. When paint is tacky, spray on patina Solution to completely cover shade. Liquid will drip off and form natural patina aging patterns. The reaction will begin almost immediately. Reaction will stop after approx. 1 hour.
3. After shade is dry, glue beaded trim around bottom edge of shade.
